

Way To Be!

The bee is an amazing thing, his flight impossible aerodynamically. But that bee doesn't listen, it's as if he doesn't care. Maybe he knows something we don't; maybe he's a secret to share.

Our beloved prophet dear has shared with us some wisdom.

It is to our own benefit to decide to listen!
He's given us nine ways to be, nine nifty little tips

That if applied in daily life will give us all a lift.

First he says "be grateful", a simple concept true;

But easy to forget, dear friends, to simply say Thank You!

Next he shares "be smart"; get yourself an education.

Learning all we can in life doesn't end with graduation!

"Be Involved" he tells us next is a very smart thing to do

With busy feet and hands and heart we'll fulfill this truth.

"Be clean" he then reminds us, in all you do and say

Our bodies are a temple; walk in the narrow way.

Next he says, "be true" and this one stands up tall

For to ourselves we must be true when our back's against the wall.

And don't forget "be positive" because there's lots of strife

Keep looking for that silver lining when clouds cover your life.

Beware of pride our prophet speaks, "be humble" and submissive

There's no room for a 'know it all' in Heavenly Father's Kingdom!

And then he sneaks a good one in when he tells us to "be still"

The noise of the world so easily drowns out our Father's will.

Last he says "be prayerful" for with this simple deed

We involve our Lord and Savior to help us with our needs.

With these tools and wisdom, like the bee we'll be

We'll soar over mountains defying gravity.

Our lives will shine with purpose; happiness will abound

When we apply these daily "be's" we're so lucky to have found!
